UK Biomethane & Gas Vehicle Conference 2013

5 June | City Hall | London

PREVIEW GUIDE

KEY SPEAKERS

- **Norman Baker**, Parliamentary Under Secretary for the Department for Transport (DfT)
- **Nick Blake**, Sales Engineering Manager, Mercedes-Benz
- **Andy Eastlake**, Managing Director, Low CVP
- **Callum Johnson**, Transport Manager, Camden Council
- **Chris Nash**, Chairman, Gasrec

+ LAUNCH OF THE GAS VEHICLE HUB

 Department for Environment, Food & Rural Affairs

In partnership with:

POWERING CLEANER TRANSPORT FOR THE UK

We are excited to bring you the first UK Biomethane and Gas Vehicle Conference which is being hosted by the Anaerobic Digestion and Biogas Association (ADBA), the Royal Borough of Greenwich, Defra, the Transport KTN, Cleaner Air for London and LowCVP. Free to attend, the conference will bring together 130 professionals from the AD industry, local authorities, government departments and agencies, fleet manufacturers, supermarkets and fleet operators to discuss the development of biomethane for transport.

“At Camden we believe that biomethane is an important piece of the puzzle when trying to address issues of air pollution and greenhouse gases from road transport. Our research indicates that it is one of the most environmentally-sound fuels, and in our fleet we find it both reliable and cost-effective. I hope that this conference will not only raise awareness of this fuel but also help delegates to identify opportunities and create partnerships to enable wider use of this fuel.”

Poppy Lyle, Senior Sustainability Officer (Air Quality), Camden Council

The benefits of using biomethane and gas fuel for HGVs and bus fleets including the cutting of carbon emissions, air quality improvement and noise reduction are clear. With increasing recognition by government departments, local authorities, vehicle manufacturers and fleet operators, this conference will bring together all important stakeholders to discuss how we can best reap these benefits and implement the necessary infrastructure.

A highlight at the event will be the launch of the new Gas Vehicle Hub, a vital database developed by The Royal Borough of Greenwich, of all operating natural gas and biomethane producers and refuelling stations in the UK. The database gives details on gas refuelling stations, gas vehicles and biomethane's role in the development of these markets.

WHO SHOULD ATTEND?

- AD industry
- local authorities
- government departments and agencies
- supermarkets
- fleet operators
- anyone interested in the development of biomethane for transport

“We feel this event gives Infineum an opportunity to show our support for this important and growing market. We believe that the environmental and cost benefits of biomethane and natural gas vehicles will provide an attractive opportunity to local authorities and fleet owners. We are keen to demonstrate our commitment to and capabilities within this area and look forward to meeting other industry participants at the event.”

Ryan Welton, Regional Market Manager, Infineum

WHO'S ALREADY ATTENDING?

- Adur & Worthing Councils • agriAD • agriAD Ltd • Bidwells
- Biocollectors • Biomethane Ltd • BioWatt • Birmingham City University • BohoGreen • Bridge Cleantech Solutions
- Brodies LLP • Bronkhorst • Camden Council • Cenex
- Chemquip Ltd • Committee on Climate Change (CCC)
- Coventry City Council • Defra • Eddie Stobart Ltd
- Energy for London • Environment Agency • Epatech
- Gas Data • Gravesham Borough Council • Greenwatt Technology • HFH Management Ltd • Infineum • Jaguar Land Rover • JouleVert Ltd • Leicester City Council • London Borough of Bexley • London Borough of Croydon • London Borough of Ealing • London Borough of Islington • Maidstone Borough Council • Milton Keynes Council • Mint Green Sustainability • National Grid • Northampton Borough Council
- Nurta Foods Ltd • Oaktec • Office for Low Emission Vehicles
- Oxford City Council • Portsmouth City Council • Royal Borough of Greenwich • Royal Borough of Kensington and Chelsea • Severn Trent Water • Sheffield City Council
- Shell Foundation • SMMT • Southampton City Council
- Sussex Air Quality Partnership • Technology Strategy Board
- Transport for London • Transport KTN • University of Southampton • VoFlo Engineering • WRAP and many more.

PROGRAMME:

TIME	AGENDA
8:30am	Registration and exhibition open Biomethane's unique role in transport
9:30am	Introduction by Chair – Andrew Whittles , Managing Director, Low Emission Strategies Ltd/Chair of ADBA's Transport Working Group
9:40am	Keynote address: A strategy for gas – Norman Baker , Parliamentary Under Secretary for the Department for Transport (DfT)
10:00am	Logistics perspective: biomethane as a road transport fuel – Catherine Crouch , Director, Tenens Environmental
10:15am	Mayor's air quality strategy – Boris Johnson (tbc)
10:30am	Gas Vehicles: A new challenge? – Ryan Welton , Regional Market Manager, Infineum
10:45am	Compressed or liquefied natural gas: opportunities to reduce HGV emissions – Andy Eastlake , Managing Director, Low CVP
11:00am	Refreshments and exhibition Delivering biomethane
11:30am	Launch of the Gas Vehicle & Infrastructure Hub – Ciara Longman , Lead Air Quality Officer, Royal Borough of Greenwich
11:50am	Delivering biomethane for transport – the barriers – Charlotte Morton , Chief Executive, ADBA
12:05pm	The role of vehicle manufacturers – Nick Blake , Sales Engineering Manager, Mercedes-Benz
12:20pm	Public private gas infrastructure partnerships – Callum Johnson , Transport Manager, Camden Council
12:35 – 1.30pm	Buffet lunch and exhibition Building on success
1:30pm	Expanding biomethane supply and refuelling infrastructure for HGVs in the UK – Chris Nash , Chairman, Gasrec
1:45pm	CNG buses – Jonas Stromberg , Director of Sustainable Solutions, Scania
2:00pm	Success in innovation – Jon Horsley , Technology Strategy Board (TSB)
2:15pm	A manifesto for gas – Rachael Dillon , Climate Change Policy Manager, Freight Transport Association
2:30pm	Refreshments and exhibition Developing infrastructure and operations
2:50pm	Developing public sector gas markets – Richard Crowther , Environmental Assessment Officer in Transport Policy, Leeds City Council (tbc)
3:05pm	Gas as a low transport fuel – Ray Cattley , Manager Environment and Trucks, Volvo (tbc)
3:20pm	Integrating biomethane into fleet operations – Justin Laney , General Manager - Central Transport, Waitrose (tbc)
3:35pm	CNG refuelling for buses – Barry Evans , Managing Director, Gas Vehicle Alliance (tbc)
3:50pm	Chair's closing remarks – Andrew Whittles , Managing Director, Low Emission Strategies Ltd/Chair of ADBA's Transport Working Group
4:00pm	Close

REGISTER YOUR INTEREST

Please note that we have only limited spaces available. To register your interest in a free ticket, please visit www.adbiogas.co.uk/biomethane-and-gas-vehicle-conference/

JOIN OUR EXHIBITORS

We offer a limited number of table top exhibition stands, so if you want to reach our targeted audience of decision makers interested in the development of biomethane and gas vehicles, join our exhibitors now. Stands are £500 ex VAT.

AS AN EXHIBITOR YOU WILL RECEIVE

- Table top exhibition stand
- Company listing in event guide exhibitor list
- Company listing and link in online exhibitor list
- Company listing and link in up to 2 email communications
- One guaranteed free ticket to the conference

GET YOUR MESSAGE ACROSS TO OUR DELEGATES

Book one of our sponsorship or advertising packages and stand out from your competitors:

- ~~Headline sponsorship~~ **SOLD**
- Drinks sponsorship
- Promotional A5 seat drop
- Full page advert in the event guide
- Half page advert in the event guide

BOOK NOW

To find out more or book an exhibition stand, advertising or sponsorship package, please contact Jamil Ahad, T 02031 764 414
E jamil.ahad@adbiogas.co.uk

“The first UK Biomethane and Gas Vehicle Conference is an excellent platform to discuss the development, and best use of, low carbon technologies, helping to provide clarity on government policy as well as an opportunity to learn from the operational experience of others.”

Catherine Crouch, Director, Tenens Environmental
