

Low Emission Cities Workshop

Best practice measures for increasing the take up of low pollution and carbon vehicles in cities

Low Emission Cities Workshop

The Low Carbon Vehicle Partnership is hosting a local authority workshop to outline best practice measures for increasing the take up of low pollution and carbon vehicles in cities covering cars, vans, taxis, and buses. The workshop is being run in collaboration with CENEX, Urban Foresight and City of York Council. The event will also be the launch of LowCVP's new best practice guides for local authorities and van fleet operators. **The event is free** and will include lunch plus an opportunity for a question and answer session with low emission vehicle experts.

Monday 6th July, 1.00pm – 4.30pm
City of York Council, West Offices, Station Rise, York YO1 6GA

Workshops will take place in the Hudson Board Room. Attendees should sign in at reception.
